QSD Access Door

Access doors are used in duct systems for many reasons. Entry is often required to facilitate duct cleaning, examine equipment, or to test, repair, or troubleshoot system components. Duro Dyne QSD access doors provide an easy solution. Size and cut a hole in the duct wall. Angle the access door through the hole and fasten it in place with the integral snap locks.

FEATURES:

- One door fits all sizes of spiral duct from 10" diameter and up
- Proprietary foam gasket ensures a tight seal
- Quick snap fasteners for fast installation and removal
- Stainless Steel construction for corrosion resistance
- One piece door design for easy alignment in duct opening
- QSD doors are designed and tested for positive static pressure applications up to 8" WG
- Green Product! The QSD has 60% less steel content than standard two piece access doors

Quick snap fasteners
